

## Acknowledgement to The Hong Kong Awards for Environmental Excellence

We, at Catholic Mission School, are incredibly grateful to have had the opportunity to participate in The Hong Kong Awards for Environmental Excellence (HKAEE) led by the Environmental Campaign Committee (ECC). This prestigious award program has inspired us to strive for a sustainable future, and it has played a vital role in fostering environmental awareness and encouraging eco-friendly practices in our school community.

Through the HKAEE, we have gained invaluable knowledge and guidance, which have empowered us to implement meaningful environmental initiatives on our campus. The support and encouragement from the ECC have been instrumental in our journey towards a greener and more sustainable future. We would like to express our deepest gratitude to the HKAEE and the ECC for their unwavering commitment to environmental protection and their efforts in nurturing the next generation of eco-conscious citizens.

As we continue to work towards a more sustainable future, we look forward to further collaboration with the HKAEE and the ECC. We are proud to be a part of this vital movement and will continue to uphold the values of environmental stewardship instilled in us by this esteemed organization. Thank you, HKAEE and ECC, for your dedication to creating a greener world for us all.
